Profile

Hello, my name is Ignacio Mansilla and I am a Full Stack Developer.

Throughout my career, I have been involved in the development of various web applications and software solutions. I have worked with clients from different industries and have gained experience in designing, developing, and deploying robust and scalable applications

Experience

Front end Developer, Vida Camara S.A

May 2023 — Present

- Implemented a single-page application using React and Typescript that improved overall performance and usability
- Utilized HTML5, CSS3, Tailwind to create a dynamic, interactive user interface that improved user experience
- Integrated third-party APIs to provide additional functionality and improve user experience
- Developed unit tests to ensure code integrity and reduce the number of bugs found in production
- Utilized version control systems such as Git to manage code changes and collaborate with other developers

Full Stack Developer, Ensolvers

2021 — April 2023

- Software and system design, architecture, coding, implementation, support, and other software solutions.
- Development of frontend and backend using Java, Typescript, React, AWS, among others.
- Integration with third-party APIs
- Version control management using Git
- Creation of unit tests.
- Creation of written analysis, recommendations, documentation, graphics, and presentations as needed.

QA Manual/Automation, Vates S.A, Córdoba

2020 — 2020

Professional internships carried out as a team member for Claro Company where my role was focused on web scraping, integration testing, and system testing.

- I collaborated on high-priority projects with tact and great attention to detail.
- I sought to overcome challenges and foster a positive team spirit.
- I used various data management and visualization tools, demonstrating my ability to work with new technologies and tools to efficiently handle and interpret data.
